

The staff from the Nursing Faculty are a very helpful people. I've heard a lot about Turkish hospitality and I was able to see it for myself. Talking about the Turkey, you won't regret anything. This country is amazing and has a lot of beautiful places that you can see. During these two months I've gone to a lot of different places and every single one of them were incredibly beautiful. So, It was an amazing two months with a lot of new experiences, knowledge and friendships.

I was surprised that people in Turkey are so kind. Almost everyone wanted to help us and it was very nice and extremely welcoming and helpful. If speaking about Erasmus community it was so helpful to have a friends there. We had a lot of events, parties, picnics and fest. It is not a secret that I lived my best student life here. Thank you all for an amazing two months here, I will never forget that!
